KOBELCO

sx755R

- Bucket capacity:
- 0.11-0.35 m³
- **Engine power:**
- 53.7 kW/2,100 min⁻¹
- Operating weight:
- 7,800 9,310 kg

KOBELCO

Def

Performance

Design

SK75SR of KOBELCO has realised a completely new value by harmonising PERFORMANCE – greater efficiency and productivity with an increased power and speed and DESIGN – operator-based operability and comfort, refusing to accept any compromises.

In pursuit of unique and matchless machines which are unforgettable once you use them, KOBELCO will continue to rise to meet every challenge.

THE ULTIMATE IN SIMPLE AND ELEGANT DESIGN

Our pursuit of functional beauty and aesthetic sense produced a new interior design.

Jog dial

This jog dial integrates multiple functions to realise simple operations. Even with gloved hands, the operator can set various machine conditions without stress.

LED backlights

The switches and dials have LED backlights – they provide a bright, clear view in the dark and set a luxurious mood.

UNFORGETTABLE COMFORT

Air suspension seat

A GRAMMER* seat is installed as standard equipment, which achieves excellent shock absorption and superior ride comfort.
*GRAMMER is trademark of GRAMMER AG. registered in Germany and other countries.

2 Air conditioner blowing from the rear

Air is blown against the operator's waist and the back of their head, offering more comfortable operation.

Lever angles allow for comfortable operations

The operator can move the levers horizontally without twisting their wrist, which reduces the fatigue caused by the operations.

4 LED door light

The LED interior light automatically turns on when the door is opened or when the ignition is set to OFF. This ensures easy entry and exit at nighttime.

5 Parallel wipers secure a wide field of view

KOBELCO

SAFETY ON FULL DISPLAY

Standard 3 Sides Safety Camera System

Our high-resolution, large display shows right, left and rear side cameras together. Multiple display allows the operator to customize viewing needs to enhance operator awareness and jobsite safety.

Large 10-Inch Color Monitor

The easy-to-operate menu screen and recognizable icons assist the operator to select the most important information needed to ensure jobsite safety and machine control.

Dial in the Right Information

Simply turn the jog dial to the right or left to select an operational feature, then press the dial to confirm selection.

EXPERIENCING A COMPETENT PERFORMANCE

Our high-power engine complies with STAGE V emission regulations

Compared to previous models, the engine output is significantly increased, which thereby shortens the digging cycle time remarkably. It attains high performances without reducing the speed even when heavy a load is applied or when travelling on a slope.

Model:YANMAR 4TNV98CT

Engine output

Increased by 27.9%

(Compared to the SK75SR-3E model)

>>> Digging cycle time Shortened by 15%

(Compared to the SK75SR-3 model)

Loaded boom lifting speed

Increased by 38%

(Compared to the SK75SR-3E model)

Arm digging speed

Increased by 37%

(Compared to the SK75SR-3E model)

GREATER MULTI-FUNCTION CAPABILITIES

Attachment mode

The flow-rate modes of the bucket, breaker, nibbler, and rotating grapple are set before delivery, which allows you to start operating immediately. Mode settings for other attachments, such as the tilt rotator, can easily be added or changed.

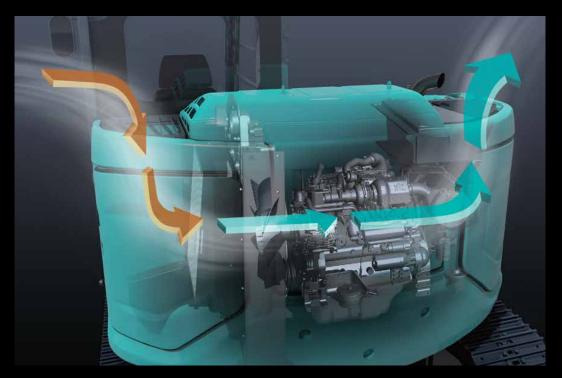

TYPES OF ATTACHMENT MODE

SX75SA

| | TYPE | MODE | OBJECTIVE OF MODE | | |
|-----------------|-------------------|-------------------|---|--|--|
| CURRENT MODE | \mathcal{L}_{c} | Bucket | Balance in operations such as levelling can be adjusted. | | |
| | | Breaker | Arm regeneration function considering front attachment weight is provided beforehand. | | |
| | T) | Nibbler (crusher) | Change of arm speed due to nibbler (crusher) opening/closing is reduced. | | |

| | TYPE | MODE | OBJECTIVE OF MODE |
|----------------|---------------|-------------------------------|--|
| | \rightarrow | Rotating grapple | Swing operation on slope while raising attachment/ equipment becomes possible. Boom 2-speed systems is controlled by proportional valve. |
| NEWLY ADDED | ф | Processor | N&B flow rate is set to maximum specifically. Regeneration of arm in operation while using front attachment is changed. |
| MODE | 8 | Thumb bucket | Swing operation while raising attachment/equipment and opening thumb bucket becomes possible. |
| | de l'em | Tilt rotator | When combined operation with arm is performed, hydraulic interference is prevented. |
| | 5.00 | Spare mode for custom setting | This mode should be customized at each field. This is provided for front attachment other than those described above. |

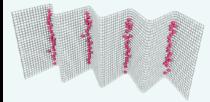

NON-STOP OPERATION BY INDr

iNDr Filter

A high-density mesh filter blocks dust intruding during air intake. This prevents the cooling device and the air cleaner from clogging with dust and maintains their performances. The ridges of the corrugated filter allow the air to pass through, and the grooves collect the dust, which prevents the filter from clogging.

How the filter catches dust

Maintainable on the ground

Portions that require daily maintenance, such as lubrication, have been laid out in easily accessible locations.

Easily removable bonnet

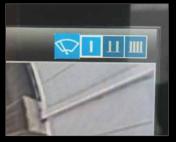

The bonnet can be detached by removing only the bolts, allowing easy access to the inside.

CONVENIENT AND SENSIBLE EQUIPMENT

Engine start password

A password is required when starting the engine for greater security. The initial password must be set at our workshop.

Wiper adjustment function

In addition to the intermittent wiper mode and continuous wiper mode, the one-time wiper mode was added.

Parallel wipers/Roll sun shade

Console mount

The console-integrated seat allows for comfortable operation.

AM/FM Bluetooth® (hands-free) radio

Bluetooth* is a registered trademark of the Bluetooth SIG Inc.

USB port/12 V power outlet

Smartphone holder You can use the holder with your smartphone connected to the USB port.

Built-in rear camera/right camera

Openable FOPS guard
The openable guard allows for easy maintenance.

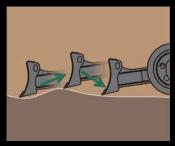

Increased clearance between the upper body and the shoes

Remote control fuel drain cock

Engine oil drain cock

Floating dozer (Option)

Floating dozer assists in easier leveling work.

Floating function can be activated by the switch which is integrated into the dozer control lever.

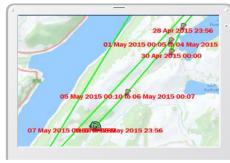

KOMEXS (Kobelco Monitoring Excavator System) uses satellite communication and internet to relay data, and therefore can be deployed in areas where other forms of communication are difficult. When a hydraulic excavator is fitted with this system, data on the machine's operation, such as operating hours, location, fuel consumption, and maintenance status can be obtained remotely.

Direct Access to Operational Status

Location Data

Accurate location data can be obtained even from sites where communications are difficult.

Work data Latest location Location records

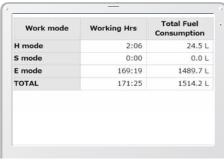

Operating Hours

- A comparison of operating times of machines at multiple locations shows which locations are busier and more profitable.
- Operating hours on site can be accurately recorded, for running time calculations needed for rental machines, etc.

Daily report

Fuel Consumption Data

Data on fuel consumption and idling times can be used to indicate improvements in fuel consumption.

Fuel consumption

Graph of Work Content

The graph shows how working hours are divided among different operating categories, including digging, idling, travelling and optional operations.

Work status

Maintenance Data and Warning Alerts

Machine Maintenance Data

- Provides maintenance status of separate machines operating at multiple sites.
- Maintenance data is also relayed to KOBELCO service personnel, for more efficient planning of periodic servicing.

... Maintenance

Warning Alerts

This system warns an alert if an anomaly is sensed, preventing damage that could result in machine downtime.

Alarm Information Can Be Received through E-mail

Alarm information or maintenance notice can be received through E-mail, using a computer or cell phone.

Alarm messages can be received on mobile device.

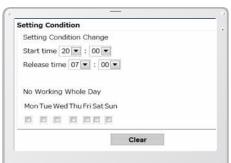

Daily/Monthly Reports

Operational data downloaded onto a computer helps in formulating daily and monthly reports.

Security System

Engine Start Alarm

The system can be set an alarm if the machine is operated outside designated time.

Engine start alarm outside prescribed work time

Area Alarm

It can be set an alarm if the machine is moved out of its designated area to another location.

Alarm for outside of reset area

Specifications

| Model | YANMAR 4TNV98CT |
|--------------------|---|
| Туре | Four-stroke, liquid-cooled, direct injection diesel, turbo charged complies with EU Stage V exhaust emission regulation |
| No. of cylinders | 4 |
| Bore and stroke | 98 mm x 110 mm |
| Displacement | 3.318 L |
| Rated power output | 52.3 kW/2,100 min ⁻¹ (ISO 9249: with fan) |
| nated power output | 53.7 kW/2,100 min ⁻¹ (ISO 14396: without fan) |
| Max. torque | 293 N·m/1,365 min ⁻¹ (ISO 9249: with fan) |
| Max. Wique | 296 N·m/1,365 min ⁻¹ (ISO 14396: without fan) |

Hydraulic system

| Pump | |
|----------------------|---|
| Туре | Variable displacement piston pumps + one gear pump |
| Max. discharge flow | 2 x 72.5 L/min 1 x 19 L/min |
| Relief valve setting | |
| Boom, arm and bucket | 29.4 Mpa |
| Travel circuit | 29.4 Mpa |
| Swing circuit | 24.5 Mpa |
| Control circuit | 5.0 Mpa |
| Pilot control pump | Gear type |
| Main control valves | 12-spool |
| Oil cooler | Air cooled type |

Swing system

| Swing motor | One fixed displacement piston motor |
|-------------------|--|
| Brake | Hydraulic; locking automatically when the swing control lever is in the neutral position |
| Parking brake | Wet multiple plate |
| Swing speed | 11.5 min ⁻¹ |
| Tail swing radius | 1,380 mm |
| Swing torque | 17 kN·m |

Attachments

- 1. Do not attempt to lift or hold any load that is greater than these lift capacities at their specified lift point radius and heights. Weight of all accessories must be deducted from the above lift capacities.
- 2. Lift capacities are based on machine standing on level, firm, and uniform ground. User must make allowance for job conditions such as soft or uneven ground, out of level conditions, side loads, sudden stopping of loads, hazardous conditions, experience of personnel, etc.
- 3. Arm top defined as lift point.
- 4. The above lifting capacities are in compliance with ISO 10567. They do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. Lifting capacities marked with an asterisk (*) are limited by hydraulic capacity rather than tipping load.
- 5. Operator should be fully acquainted with the Operator's and Maintenance Instructions before operating this machine. Rules for safe operation of equipment should be adhered to at all times.
- $6. \ Lift capacities apply to only machine as originally manufactured and normally equipped by KOBELCO CONSTRUCTION MACHINERY CO., LTD.\\$

STANDARD EQUIPMENT

ENGINE

- YANMAR 4TNV98CT diesel engine with turbocharger and intercooler, EU Stage V compliant
- Auto Idle Stop
- Automatic engine deceleration
- Batteries (2 x 12 V 72 Ah)
- Starting motor (24 V 3.5 kW), 50 amp alternator
- Engine oil pan drain cock
- Double element air cleaner
- Refueling pump

CONTROL

- Working mode selector
 - (H-mode, S-mode and ECO-mode)
- N&B piping (proportional hand controlled) (Not applicable for Offset boom)
- Extra piping (proportional hand controlled)
- Object Handling Kit (boom and arm safety valves)

SWING SYSTEM & TRAVEL SYSTEM

- Swing rebound prevention system
- Straight propel system
- Two-speed travel with automatic shift down
- Sealed & lubricated track links
- 450 mm steel shoes
- Grease-type track adjusters
- Automatic swing brake
- Lower Frame Guard
- Dozer Blade

MIRRORS, LIGHTS & CAMERAS

- Rear view mirror, rear view camera and right side view camera
- Three front working lights (LED)

CAB & CONTROL

- Two control levers, pilot-operated
- Horn, electric
- Integrated left-right slide-type control box
- LED door light (interior)
- Coat hook
- Large cup holder
- Detachable two-piece floor mat
- GRAMMER* air suspension seat with heater
- Retractable seatbelt
- Headrest
- Handrails
- Intermittent Parallel wiper with double-spray washer
- Skylight
- Openable top guard (ISO 10262: 1998)
- Tinted safety glass
- Pull-type front window and removable lower front window
- Easy-to-read 10-inch LCD SCREEN multi-display monitor
- Emergency escape hammer
- Radio (AUX & Bluetooth)
- 12 V converter
- Hands-free telephone
- USB port
- Automatic air conditioner The air conditioning system on this machine contains fluorinated greenhouse gas HFC-134a (GWP 1430). Quantity of gas 0.8 kg (CO₂ equivalent 1.2 t)

OPTIONAL EQUIPMENT

- Various optional arms
- Wide range of shoes
- Front-guard protective structure (may interfere with bucket action)
- Additional counterweight (+300 kg)
- Cab top work LED lights (two lights)
- Mechanical suspension seat (Applicable for N&B piping)
- Rain visor (may interfere with bucket action)
- Floating dozer

Note: Standard and optional equipment may vary. Consult your KOBELCO dealer for specifics. Bluetooth* is a registered trademark of the Bluetooth SIG Inc.
*GRAMMER is trademark of GRAMMER AG. registered in Germany and other countries.

- Low & High flow piping (proportional hand controlled)
 (Applicable for Offset boom)
- Long Stroke Dozer
- Offset boom
- Quick Hitch piping
- Heavier counterweight (+350 kg)
- Eagle eye view

Note: This catalogue may contain attachments and optional equipment that are not available in your area. And it may contain photographs of machines with specifications that differ from those of machines sold in your areas. Please consult your nearest KOBELCO distributor for those items you require. Due to our policy of continuous product improvements all designs and specifications are subject to change without advance notice.
